

**FACULTY POSITION**  
**UROLOGY/SURGERY DEPARTMENT**  
**Children's Hospital Boston**

The **Department of Urology** at the **Children's Hospital Boston** invites applications for a position at the rank of Assistant or Associate Professor in the broad area of Basic Urological Diseases Research. Particular attention will be paid to basic scientists with expertise in signal transduction and gene expression. The department is home to a George O'Brien Urological Diseases Research Center, funded by a P50 grant from the NIDDK. The Urology Department's basic science program is a large, well-funded, and diverse program. The successful candidate will closely interact with a growing research group within the George O'Brien Urological Diseases Research Center. Candidates should have a PhD, along with at least 5 years of post-doctoral experience, in an appropriate area of biomedical science. The successful individual will be expected to establish an independent, extramurally-funded research program. Interested persons should send a cover letter with curriculum vitae and names of three references, via e-mail, to:

**Dr. Michael R. Freeman, Chair of the Urology Science Faculty Search Committee, Department of Urology, Enders 1161, 300 Longwood Ave., Children's Hospital Boston, Boston, MA 02115. E-mail: michael.freeman@childrens.harvard.edu.**

Review of applications will begin April 1, 2008 and will continue until the position has been filled.

Harvard Medical School & Children's Hospital are affirmative action, equal opportunity employers. Minorities and women are encouraged to apply.
