

Faculty Position, Renal Division, Brigham and Women's Hospital,
Harvard Medical School

The Renal Division, Department of Medicine, at the Brigham and Women's Hospital is seeking an outstanding Instructor/Assistant/Associate Professor level scientist in nephrology in the area of stem cell biology. Applicants should possess Ph.D., M.D. or M.D., Ph.D degrees and have several years of relevant postdoctoral experience. Opportunities exist for collaboration with an active research group. Preference will be given to individuals who have outstanding publications in stem cell biology and exemplary communication and management skills. The candidate will assume the appropriate academic rank at Harvard Medical School and the position of Associate Biologist at Brigham and Women's Hospital.

BWH is an Equal Opportunity Employer; women and other minorities are encouraged to apply. Send statement of interest, full CV, a brief description of research goals and accomplishments, and a summary of current and past grant support. Candidates should submit their CV's to: Joseph V. Bonventre, MD, PhD, Chief, Renal Division, Brigham and Women's Hospital, 75 Francis Street, Boston, MA 02115 (joseph_bonventre@hms.harvard.edu).
