Palliative Care Education and Practice
November 5–10, 2017 and May 7–11, 2018
Hotel Marlowe, Cambridge, Massachusetts

Course Directors: James Tulsky, MD; Vicki Jackson, MD
Pediatric Track Directors: Joanne Wolfe, MD; Christina Ullrich, MD

What is Palliative Care Education and Practice (PCEP)?
PCEP is an intensive two week course delivered in two parts that empowers clinicians to enhance care, teach, and lead in palliative care. It is taught by expert palliative care clinicians and educators who create a warm, welcoming environment conducive to deep learning and growth.

Who should attend?
PCEP provides physicians, nurses, and psychosocial clinicians a structure in which to efficiently acquire the skills and perspective necessary to create change and promote palliative care. The pediatric track highlights the unique aspects of palliative care for children.

How will PCEP enhance my career?
At the conclusion of PCEP, participants will have acquired significant skills in the clinical practice and teaching of comprehensive, interdisciplinary palliative care, as well as having gained expertise in leading and managing improvements in palliative care education and practice at their own institutions.
